Where are we now?

There are many families that would prefer to drive to school rather than make alternative arrangements. Some will bike or scooter to school on a nice sunny day, there is potential for more active travel due to the infrastructure of our village.

What do we want to change?

Speed of traffic. Number of cars during drop off and pick up times. More families to cycle or scooter to school.

Goals for academic year

- 1: Deliver active travel awareness workshops
- 2: Promote active school journeys to parents and guardians
- 3: Build networks with local authorities and local organisations
